REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Member of PRIME INTERNATIONAL EQUITIES, LLC:

We have audited the accompanying statement of financial condition of Prime International Equities, LLC, as of December 31, 2001, and the related statements of operations, changes in member's equity and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Prime International Equities, LLC as of December 31, 2001, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

PRIME INTERNATIONAL EQUITIES, LLC

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2001

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Organization

Prime International Equities, LLC (the Company) is a registered broker-dealer in securities under the Securities Exchange Act of 1934 and a member of the Chicago Board Options Exchange (CBOE). As of January 1, 2000 the Company converted from a corporation to a limited liability company. The Company engages in market making activity and the speculative trading of stock, futures and options thereon and affects transactions only with other broker-dealers, and clears and carries its trading accounts with registered clearing members of the Exchange.

Revenue Recognition

Securities transactions and related income and expenses are recorded on the settlement date basis. Generally Accepted Accounting Principles normally require an entity to record security transactions on a trade date basis, however, the majority of brokers and dealers record most securities transactions on the settlement date rather than the trade date. The difference between trade date and settlement date is not material to the Company's financial position at December 31, 2001, nor material to the results of its operations for the year then ended.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management determines that the estimates utilized in preparing financial statements are reasonable and prudent. Actual results could differ from those estimates.

Income taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the income tax returns of the member.

PRIME INTERNATIONAL EQUITIES, LLC

NOTES TO FINANCIAL STATEMENTS, CONTINUED DECEMBER 31, 2001

NOTE 2 - NET CAPITAL REQUIREMENT:

The Company is a broker-dealer subject to the Securities and Exchange Commission's Uniform Net Capital Rule (15c3-1).

At December 31, 2001, the Company had net capital and net capital requirements of approximately \$2,668,443 and \$250,000, respectively.

NOTE 3 - CLEARING AGREEMENTS:

The Company has Joint Back Office (JBO) clearing agreements with First Options of Chicago, Inc. (FOC) and ABN-AMRO Sage Corporation. The agreements allow JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of these agreements, the Company has invested \$10,000 in the preferred shares of FOC and \$50,000 in the preferred shares ABN-AMRO. These investments are reflected as investments in brokers-dealers in the statement of financial condition. Under the rules of the Chicago Board Options Exchange (the "CBOE"), the agreements require that the Company maintain a minimum net liquidating equity of \$1 million with each entity, exclusive of the preferred stock investment.

NOTE 4 - DUE TO AFFILIATES

Net amounts due to entities with common ownership at December 31, 2001 amounted to \$552,737.

NOTE 5 - TRADING ACTIVITIES

The Company trades in exchange traded equities and equity options contracts. The net trading gain from these activities for the year ended December 31, 2001 was \$3,913,686.

The fair value of derivatives represents long and short options contracts at market value. The following table discloses the approximate fair values of derivative financial instruments held for trading as of December 31, 2001, as well as the approximate quarterly average fair values of derivatives held during 2001:

		December 31, 2001	Average During 2001
Options held	\$	300,000	\$ 1,260,000
Options written	\$	378,000	\$ 938,000

PRIME INTERNATIONAL EQUITIES, LLC

NOTES TO FINANCIAL STATEMENTS, CONTINUED
DECEMBER 31, 2001

NOTE 6 – FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK
AND CONCENTRATION OF CREDIT RISK

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk which include exchange-traded equity options contracts and short stocks.

Options contracts grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified instrument under agreed terms. As a writer of options contracts, the Partnership receives a premium in exchange for bearing the risk of unfavorable changes in the price of the securities underlying the options.

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the statement of financial condition.

All financial instruments with off-balance sheet risk and other derivative financial instruments are held for trading purposes. Risk arises from the potential inability of counter parties or exchanges to perform under the terms of the contracts (credit risk) and from changes in the values of securities, interest rates, currency exchange rates or equity index values (market risk).

The contractual or notional amounts related to derivative financial instruments reflect the volume and activity and do not reflect the amounts at risk. At December 31, 2001, the contract or notional amounts of derivative financial instruments used for trading purposes were as follows:

		<u>Millions</u>
Options held	\$	6
Options written	\$	6

In management's opinion, the market risk is substantially diminished when all financial instruments, including stocks owned and sold, not yet purchased, are aggregated.

At December 31, 2001, a significant credit concentration consisted of the total net equity of the Company with the Company's clearing brokers, First Options of Chicago, Inc. and ABN-AMRO. Management does not consider any credit risk associated with these net receivables to be significant.

PRIME INTERNATIONAL EQUITIES, LLC

**NOTES TO FINANCIAL STATEMENTS, CONTINUED
DECEMBER 31, 2001**

NOTE 7 – LITIGATION

On December 28, 2001, an arbitration was filed before the National Association of Securities Dealers, Inc. in which the Company and a trader of the Company have been implicated.. The claim requests damages, punitive damages, costs and attorneys' fees. The Company and its legal counsel cannot yet express an opinion as to the ultimate outcome of the claim. Management intends to vigorously defend against the claim. No provision has been made in the financial statements for any loss that may result from the arbitration proceeding.

**REPORT OF INDEPENDENT AUDITORS
ON INTERNAL ACCOUNTING CONTROL STRUCTURE REQUIRED BY
SEC RULE 17a-5**

To the Member of PRIME INTERNATIONAL EQUITIES, LLC:

In planning and performing our audit of the financial statements of PRIME INTERNATIONAL EQUITIES, LLC (the "Company") for the year ended December 31, 2001, we considered its internal control structure, including procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g) (1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5 (g), in making the periodic computations of aggregate indebtedness (or aggregate debts) and net capital under Rule 17a-3(a)(11). We did not review the practices and procedures followed by the Company (1) in making the quarterly securities examination, counts, verifications, and comparison, and the recitation of differences required by Rule 17a-13; (2) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve Commission; (3) in obtaining and maintaining physical possession or control of fully paid and excess margin securities of customers as required by the Rule 15c3-3; and (4) in making the periodic computations of the reserve required by Rule 15c3-3 (e), because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an

internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness or their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
